

Yemen TMO Removes Cap on Limiting Goods/Services for Trademark Applications

In a vital policy change, the Yemen TMO has removed the limitations, that it had previously imposed in October 2024, on number of goods/services that can be claimed in a trademark application. With this move, the trademark applicants can now heave a sigh of relief as they are permitted to claim unlimited number of goods/services per application.

Earlier, the Yemeni TMO, vide a ministerial decision 52/2024 of October 2024, had restricted number of goods/services per application to 10 items. Though this cap has been removed now, any goods/service listed beyond the 10th item will still attract additional publication fees. This additional publication fees will be calculated at 5% of the original publication fee per extra item.
